

Why was Pope John Paul II quoted in the New York Times as saying that "Evolution is more than just a hypothesis"? Can we square the evolutionary concept of "survival of the fittest" with a good and loving God? What is the truth about the fossil evidence? How does it effect the interpretation of the Bible, the Koran and other books considered the authoritative "Word of God"? These questions and more are answered in GOD AND EVOLUTION?-The Implications of Darwin's Theory for Fundamentalism, the Bible and the Meaning of Life. A must read for anyone who has a real desire to understand the theological implications of evolution. Contains over 90 illustrations of the most unusual fossil evidence with solid reasoning demonstrating that Faith and Science can coexist without cognitive dissonance. This well-documented book should also help build a bridge between the science and religious communities.-----"I admire what Samson has done, his ability to understand the issues, his impressive knowledge and his willingness to wade into some of the major issues of knowledge and belief in our time... the book is certainly well written ... intellectually impressive... a remarkable book!" -Columbia University Press "In God and Evolution, Samson reminds us that the world is full of beauty and wonder and that science is mostly impartial, trying to help us understand the complexities in nature. It is clear from Samson's discussion on evolutionary ethics that Darwin is not so frightening as those who profit from denigrating him pretend." -Thane Maynard, author and host of the nationally syndicated radio program, "The 90-Second Naturalist" and Vice President of Public Information, Cincinnati Zoo. "Brilliant writing! The best overview of the Evolution-Creation controversy in print today! Samson has spent 14 years studying this complex issue but has written for the layperson. This is the textbook for educators, church pastors, students and anyone who has questions on the conflict between their faith and science. It should be in every library and seminary in America!" -Charles Scott, Episcopal Priest

MyITLab with Pearson eText -- Access Card -- for Technology In Action, Complete, The Therapists Guide to Psychopharmacology: Working with Patients, Families, and Physicians to Optimize Care, Buddhist Lives (Living Faith), Preja Vu, Memory: From Mind to Molecules, Avengers West Coast (1985-1994) #51, Speaker for the Dead (The Ender Quartet series Book 2), Legacy: A Novel (Eon), Overcome Social Anxiety and Shyness: How to Be Confident and More Outgoing, My Gypsy Forever: An Irish Traveller Romance (The McDeglin Clan Book 3),
