

Integrating Windows to legacy systems -- that is, existing hardware or software -- is an ongoing challenge in industry today. This book explains why off-the-shelf Windows printing products don't always work with existing printers and how to resolve such problems. It covers all types of Windows from 3.X through 98 and NT and shows how to cope with the variety of specialized printers including bar code printers, label printers, pin-fed printers for multiforms, and special document printers.
