

Praise for the Shapeshifters Library series: A ridiculously creative story! - Melissas Mochas, Mysteries and More An enthralling story full of mysteries, magic and shifters. --InD Tale Magazine Dog-shifters are once again pitted against the book-burning werewolves of Shipsfeather in this charming second installment of the Shapeshifters Library series. Godiva Anglesey, Chocolate Labrador, and the ruggedly handsome English Mastiff Cynerik are forced to team up against power-hungry werewolves when Cynerik discovers an ancient Ohio mound that may hold answers to their shifter history in the New World. Knowing that the secrets of the mound could give the dog-shifters an advantage in the ongoing contest for power, Pack Alpha Sybilla challenges the timid Godiva to a battle for the territory. Godiva, who has no interest in battling anyone, must turn from running her small town library and train for a challenge she knows she has no chance of winning. She has enough on her hands with a malicious book-worm infestation, a censorship campaign, and a lawsuit. Just when she thinks things couldnt get any worse, Godivas mother announces that family tradition dictates that Godiva must be married by Summer Solstice... to a Druid. Godiva doesnt even know any Druids. All Godiva ever wanted was to live a simple life, retrieving books for library patrons and keeping people happy. Shes no hero, and she doesnt have what it takes to face down werewolves or save the world. Cynerik, however, believes differently. Together they must find a way to defeat the werewolves, save the Shipsfeather library, protect the most important archeological discovery in dog-shifter history, restore the dogs to global power... and, just maybe, find love along the way. ...a well considered, zany fantasy. --Jellyfish Day
