

Being a member of the Shark Knights, the world's elite superhero team, can be tough. It means facing off against shadow zombies, fire tornados and an ancient nightmare that enjoys eating people. While the Knights slug it out with the worst villains around, a sinister organization secretly plots to destroy them. The team is led by Sky Hunter, who smashes his opponents with his sonic flight powers. Pierce, whose energy beams can punch through a tank, is always ready for a scrap. And Shy, a shape shifter, is the rookie on the team. She's just trying to survive long enough to learn everyone's name. Along with their other teammates, the Knights risk their lives fighting the darkest of evils while trying to figure out their party plans for Friday night. Because what's the point of saving the world if you can't get a date?
